

INTERNATIONAL DEMO AGAINST COVANCE

SAT 9TH JULY IN MÜNSTER

STARTS 11 A.M. AT SALZSTRASSE / KARSTADT

**CRUELLY
AND
DEADLY**

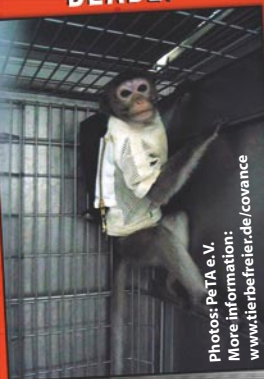

COVANCE

A NAME SYNONYMOUS WITH CRUELTY

In 2003 Covance was infiltrated by animal rights activists for the third time, this time at their site in Munster. The shocking video footage which has now resulted from an 11 month undercover investigation at the American Covance Laboratory in Virginia is almost identical to what was seen in 2003 at the Münster Covance lab. **This is the sad reality for millions of animals every day at experimental laboratories worldwide!**

On the 9th of July in Münster attention will be called to the suffering of the animals with a large demonstration with participants from home and abroad. During the whole demonstration there will be a stroke of a gong every 15 seconds. In total there will be 1000 strokes of the gong to represent the 1000 monkeys that die every year at Covance.

Schedule: From 11 a.m. - information stalls at the Dominikanerkirchplatz, Salzstrasse near Karstadt by, amongst others, die tierbefreier e.V., PeTA e.V., Münsteraner Initiative für Tierrechte e.V., Menschen für Tierrechte e.V., Ärzte gegen Tierversuche e.V. From 12 noon - speeches from different speakers. From 1 p.m. - march through the city center. After the march the demonstration will push along to the Covance torture lab at Kesselfeld.
